
Citation network of all 4,318 PubMed ageing papers using trajectory-shape vocabulary plus the 20 manuscript papers (OpenAlex; 3,850 citation links). Communities: Louvain on the largest connected component (1,914 papers), 12 largest shown, named from their most-cited papers. Bubble area ∝ papers; line width ∝ citations between communities. The two manuscript papers outside the green community: Pridham 2024 (biological-age measures) and Carey 1998 (not connected).
